

METAL INDUSTRY

World class quality standards

In the municipality of Žepče there are **30 companies** and **5 crafts** engaged in metalworking and are employing a total of **420 people**.

The production program of the metal industry in Žepče includes:

- Production and installation of all types of trailers and semi-trailers for the transport of petroleum products;
- Installation and assembly of stainless steel plants, production lines in industry for various purposes (food, chemical, petroleum, etc.);
- Cold and hot insulation of pipelines and elements of industrial plants, production and installation of ducts for air conditioning and ventilation of buildings, all surrounding building elements;
- Insulation of steam heating pipes and hot water pipes, insulation with flexible thermal insulation for outdoor use up to a temperature of 150 C°;
- Installation of insulation panels for chambers and refrigerators, installation of facade, wall and roof thermal insulation panels for buildings for various purposes;
- Production of chairs, tables, railings, benches, racks, steel structures for all types of buildings;
- Processing of ribbed concrete steel, production of reinforcing mesh, lattice tunnel supports, production of "Omnia" slabs, production of reinforced concrete fences;
- Production of machines for purification of soil and water from pollutants with heavy lubricants, primarily crude oil, and production of cooling systems for large industrial halls;
- Metal finishing services: electrostatic powder coating (plastic coating), hot dip galvanizing, wet painting.

Export products and markets:

The metal industry of the municipality of Žepče is highly export oriented.

- Export value in 2020:

23.446.987,73 KM

- Share of total exports of the economy in 2020:

30%

Top 5 most important metal industry markets in 2020:

Slovenia, Norway, Croatia, Czech Republic, Austria and the Netherlands.

Basic characteristics of enterprises from the metal sector.

- High product quality;
- Competitive product prices;
- Trained workforce;
- Flexibility in adapting to specific requirements;
- Compliance with the requirements of European markets.
